CONSOLIDATED FINANCIAL STATEMENTS AND
INDEPENDENT AUDITORS' REPORT
DECEMBER 31, 2025 AND 2024**

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

TMP STEEL CORPORATION AND SUBSIDIARY
Declaration of Consolidated Financial Statements of Affiliated Enterprises

For the year ended December 31, 2025, pursuant to Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises, the companies that are required to be included in the consolidated financial statements of affiliates, are the same as those required to be included in the consolidated financial statements under International Financial Reporting Standards 10 “Consolidated Financial Statements”. Relevant information that should be disclosed in the consolidated financial statements of affiliates has all been disclosed in the consolidated financial statements of affiliates. As a result, TMP Steel Corporation and subsidiaries are not required to prepare consolidated financial statements of affiliates.

Hereby declare

TMP Steel Corporation

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of TMP Steel Corporation

Opinion

We have audited the accompanying consolidated balance sheets of TMP Steel Corporation and its subsidiary (the “Group”) as of December 31, 2025 and 2024, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2025 and 2024, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Group's 2025 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matter for the Group's 2025 consolidated financial statements is stated as follows:

Existence of operating revenue

Description

Refer to Note 4(28) for accounting policy on revenue recognition and Note 6(21) for details of operating revenue. The Group's operating revenue for the year ended December 31, 2025 was \$7,678,408 thousand.

The Group is primarily engaged in the sale of steel building materials. As the Group has numerous trading counterparties and a high volume of transactions which would require a longer period for verification, we considered the existence of operating revenue a key audit matter:

How our audit addressed the matter

We performed the following audit procedures in respect of the above key audit matter:

- A. Understood the design and assessed the effectiveness of the internal controls over sales revenue.
- B. Assessed basic information on major customers, including the details of personnel in charge, registered address, operating address, relationships with these major customers, and further evaluated the reasonableness of transactions and whether they were related to major suppliers.
- C. Selected samples of sales transactions and performed the following procedures:

- (a) Verified whether sales transactions have original supporting documents including confirmation orders, shipping documents and invoices.
 - (b) Ascertained whether material accounts receivable have been offset against the same parties to which the sales were made.
 - (c) Inspected whether there were any recurring or significant sales returns after the stated period and whether there were any abnormalities in payment collections after the stated period.
- D. Selected samples from sales transactions and sent to corresponding parties for external confirmation. Performed alternative audit procedures when responses to confirmation requests were not received on time.

Other matter – Parent company only financial reports

We have audited and expressed an unmodified opinion on the parent company only financial statements of TMP Steel Corporation as of and for the years ended December 31, 2025 and 2024.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements. As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit.

We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our

independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

TMP STEEL CORPORATION AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2025 AND 2024

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANISATION

- (1) TMP Steel Corporation (the “Company”) was incorporated on May 16, 1984 as a company limited by shares under the provisions of the Company Act of the Republic of China (R.O.C). The Company and its subsidiary (the “Group”) are engaged in the wholesale of hardware and building materials and the manufacture and sales of its components.
- (2) The Company used to be named Taipei MultiPower Electronics Co., Ltd., then changed its name to Taipei MultiPower International Co., Ltd., as approved by the shareholders during their meeting on June 15, 2010; On June 29, 2016, the shareholders during their meeting has approved to again change the Company’s name to TMP Steel Corporation.
- (3) The common shares of the Company have been listed on the Taipei Exchange since September 2003.

2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These consolidated financial statements were authorised for issuance by the Board of Directors on March 6, 2026.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

- (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS[®]”) Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2025 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board (“IASB”)</u>
Amendments to IAS 21, ‘Lack of exchangeability’	January 1, 2025

The above standards and interpretations have no significant impact to the Group’s financial condition and financial performance based on the Group’s assessment.

- (2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2026 are as follows:

New Standards, Interpretations and Amendments	Effective date by IASB
Specific provisions of Amendments to IFRS 9 and IFRS 7, 'Amendments to the classification and measurement of financial instruments'	January 1, 2026
Amendments to IFRS 9 and IFRS 7, 'Contracts referencing nature-dependent electricity'	January 1, 2026
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
Annual Improvements to IFRS Accounting Standards - Volume 11	January 1, 2026

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by IASB
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by IASB
IFRS 18, 'Presentation and disclosure in financial statements'	January 1, 2027 (Note)
IFRS 19, 'Subsidiaries without public accountability: disclosures'	January 1, 2027
Amendments to IAS 21, 'Translation to a Hyperinflationary Presentation Currency'	January 1, 2027

(Note) The FSC has announced in a press release on September 25, 2025 that public companies will apply IFRS 18 starting from the fiscal year 2028. Additionally, entities can choose to adopt IFRS 18 earlier based on their requirements after the FSC endorses IFRS 18.

Except for IFRS 18, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

IFRS 18, 'Presentation and disclosure in financial statements':

IFRS 18 replaces IAS 1. The standard introduces a defined structure of the statement of profit or loss, disclosure requirements related to management defined performance measures, and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers”, International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the “IFRSs”).

(2) Basis of preparation

A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:

- (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
- (b) Financial assets and financial at fair value through other comprehensive income.
- (c) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.

B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5, ‘CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY’.

(3) Basis of consolidation

A. Basis for preparation of consolidated financial statements:

- (a) All subsidiaries are included in the Group’s consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
- (b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
- (d) Changes in a parent’s ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference

between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.

- (e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognised in profit or loss. All amounts previously recognised in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognised in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

B. Subsidiaries included in the consolidated financial statements:

Name of investor	Name of subsidiary	Main business activities	Ownership (%)		Description
			December 31, 2025	December 31, 2024	
TMP Steel Corporation	Taiwan Steel Material Corp.	Wholesale of hardware and sale	100.00	100.00	—

C. Subsidiaries not included in the consolidated financial statements: None.

D. Adjustments for subsidiaries with different balance sheet dates: None.

E. Significant restrictions: None.

F. Subsidiaries that have non-controlling interests that are material to the Group: None.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars, which is the Company's functional and the Group's presentation currency.

- A. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- B. Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- C. All foreign exchange gains and losses are presented in the statement of comprehensive income within "other gains and losses".

(5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
- (a) Assets that are expected to be realised, or are intended to be sold or consumed in the normal operating cycle;
 - (b) Assets that are held primarily for the purpose of trading;
 - (c) Assets that are expected to be realised within twelve months after the reporting period;
 - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities for at least twelve months after the reporting period.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
- (a) Liabilities that are expected to be settled in the normal operating cycle;
 - (b) Liabilities that are held primarily for the purpose of trading;
 - (c) Liabilities that are due to be settled within twelve months after the reporting period;
 - (d) It does not have the right at the end of the reporting period to defer settlement of the liability at least twelve months after the reporting period.

(6) Cash equivalents

- A. Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value.
- B. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitment in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Company recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income.

- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:
The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognized as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(9) Financial assets at amortized cost

- A. Financial assets at amortized cost are those that meet all of the following criteria:
 - (a) The objective of the Group's business model is achieved by collecting contractual cash flows.
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. The Group's demand deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(10) Notes and accounts receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(11) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses. If the cost exceeds net realisable value, valuation loss is accrued and recognised in operating costs. If the net realisable value reverses, valuation is eliminated within credit balance and is recognised as deduction of operating costs.

(12) Impairment of financial assets

For financial assets at amortised cost, at each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable that do not contain a significant financing component, the Group recognises the

impairment provision for lifetime ECLs.

(13) Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(14) Leasing arrangements (lessor) - operating lease

Lease income from an operating lease (net of any incentives given to the lessee) is recognised in profit or loss on a straight-line basis over the lease term.

(15) Investments accounted for using equity method - associates

- A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity methods and are initially recognised at cost.
- B. The Group's share of its associates' post-acquisition profits or losses is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- C. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Group's ownership percentage of the associate, the Group recognises all changes in 'capital surplus' in proportion to its ownership.
- D. Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- E. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognised in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognised in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.

(16) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the

replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

- C. Land is not depreciated. Other property, plant and equipment apply cost model and are subsequently depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Assets	Useful lives
Buildings (including auxiliary equipment)	8 ~ 50 years
Machinery and equipment	2 ~ 20 years
Transportation equipment	2 ~ 5 years
Office equipment	1 ~ 20 years
Leasehold improvements	2 ~ 15 years

(17) Leasing arrangements (lessee) - right-of-use assets/lease liabilities

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of the fixed payments, less any lease incentives receivable. The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.
- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
 - (a) The amount of the initial measurement of lease liability; and
 - (b) Any lease payments made at or before the commencement date;

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an

adjustment to the right-of-use asset.

- D. For lease modifications that decrease the scope of the lease, the lessee shall decrease the carrying amount of the right-of-use asset and remeasure the lease liability to reflect the partial or full termination of the lease, and recognise the difference in profit or loss. For all other lease modifications, the lessee shall remeasure the lease liability and adjust the right-of-use asset, correspondingly.

(18) Intangible assets

- A. Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 1 to 5 years.
- B. Other intangible assets are stated at cost and amortised on a straight-line basis over its estimated useful life of 5 years.

(19) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

(20) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(21) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(22) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expires.

(23) Employee benefits

- A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in the period and should be recognised as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their service with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability.
- ii. Remeasurements arising on defined benefit plan are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.

C. Employees' compensation and directors' remuneration

Employees' compensation and directors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Group calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(24) Employee share-based payment

- A. For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognised is based on the number of equity instruments that eventually vest.
- B. For cash capital increase reserved for employee preemption, grant date is determined in accordance with the date which subscription price and amounts are agreed.

(25) Income taxes

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.
- D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.

(26) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

(27) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(28) Revenue recognition

A. Sales of goods

- (a) The Group manufactures and sells steel building materials. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.
- (b) Accounts receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

B. Rendering of services

- (a) The Group provides processing services. Revenue from providing services is recognised in the accounting period in which the services are rendered. For fixed-price contracts, revenue is recognised based on the service rendered up to the end of the reporting period as a proportion of the total services to be provided.
- (b) The Group's estimate about revenue, costs and progress towards complete satisfaction of a performance obligation is subject to a revision whenever there is a change in circumstances. Any increase or decrease in revenue or costs due to an estimate revision is reflected in profit or loss during the period when the management becomes aware of the changes in circumstances.

(29) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Group's chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

As the Group's operating scale and industry that it belongs to are not complex, estimation and valuation on carrying amounts of assets and liabilities can be verified objectively. The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. There is no significant risk that would cause a material adjustment to the carrying amount of assets and liabilities within the next financial year.

The remaining earnings plus the accumulated unappropriated earnings shall be proposed by the Board of Directors to be resolved at the shareholders' meeting as dividends to shareholders.

In accordance with Paragraph 5 of Article 240 of the Company Act, the Board of Directors is authorised by the Company to resolve the distribution of dividends and bonuses, in whole or in part, in the form of cash by the resolution adopted by the majority vote at their meeting attended by two-thirds of the total number of directors, and then reported it to the shareholders.

The Company's dividend policy is in line with current and future development plans, and takes into consideration investment environment, capital requirements, domestic and overseas competition, and shareholders' interest, etc. At least 30% of the Company's distributable earnings of the year shall be appropriated as dividends and bonuses each year. However, the distribution is not required if the accumulated distributable earnings is lower than 1% of paid-in capital. Dividends and bonuses may be distributed in the form of cash or shares, and cash dividends shall account for at least 10% of the total dividends distributed. However, the type and payout ratio of dividend may be adjusted by the resolution of the shareholders during their meeting according to the actual profit and capital position of the year.

- C. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- D. On May 26, 2025 and April 22, 2024, the stockholders during their meeting resolved the distributions of cash dividends from the 2024 and 2023 earnings in the amount of \$179,921 (\$1.8 (in dollars) per share) and \$139,912 (\$2.0 (in dollars) per share), respectively. On March 6, 2026, the Board of Directors proposed for the distribution of cash dividends of \$116,944 (\$1.17 (in dollars) per share). Information about the distribution of dividends by the Company as proposed by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

- A. The Company's distributable profit of the year (the distributable profit refers to profit before deducting tax and the employees' compensation and directors' and supervisors' remuneration below), if any, shall be used to cover accumulated deficit, and the remainder, if any, is distributed as follows: (a) 1% ~ 10% for employees' compensation, at least 10% of the amount allocated for employee compensation shall be distributed to non-managerial employees, and (b) No higher than 4% for directors' and supervisors' remuneration. The aforementioned employees' compensation can be distributed in the form of stocks or cash. The employees include the employees of the Company's subsidiaries who meet the requirements stipulated by the Board of Directors. The aforementioned directors' and supervisors' remuneration can only be distributed in the form of cash. Both distributions shall be proposed by the Remuneration Committee to the Board of Directors. The Board of Directors shall resolve the distributions by approval of more than half of directors present at a meeting where more than two-thirds of the directors are in attendance, and report the resolution at the shareholders' meeting.
- B. For the years ended December 31, 2025 and 2024, employees' compensation were accrued at \$2,200 and \$2,800, respectively; while directors' remuneration were accrued at \$1,710 and \$2,205, respectively. The aforementioned amounts were recognised in salary expenses, and were estimated and accrued based on the percentage prescribed by the Company's Articles of Incorporation, depending on distributable profit for the year. On February 21, 2025, the employees' compensation and directors' and supervisors' remuneration for 2024 as resolved by the Board of Directors totaled \$5,005, and the employees' compensation will be distributed in the form of cash. The employees' compensation and directors' and supervisors' remuneration resolved by the Board of Directors on March 6, 2026 were \$2,200 and \$1,710, respectively, and the employees' compensation will be distributed in the form of cash. Information about employees' compensation and directors' and supervisors' remuneration of the Company as resolved at the meeting of Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

(2) As of December 31, 2025 and 2024, the balances for contracts that the Group entered into but not yet incurred for the purchase of property, plant and equipment are \$94,320 and \$—, respectively.

10. SIGNIFICANT DISASTER LOSS

None.

11. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

None.

12. OTHERS

(1) Capital management

The Group’s objectives when managing capital are to safeguard the Group’s ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

(2) Financial instruments

A. Financial instruments by category

Details of the Group’s financial instruments by category are provided in Note 6.

B. Financial risk management policies

(a) The Group’s activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. To minimise any adverse effects on the financial performance of the Group, derivative financial instruments are used to hedge certain risk.

(b) Risk management is carried out by a treasury department under policies approved by the Board of Directors. Group treasury identifies, evaluates and hedges financial risks in close cooperation with the Group’s operating units.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

i. The Group has certain purchases denominated in USD. Changes in market exchange rates would affect the fair value. However, the payment and collection periods of assets and liability positions in foreign currencies are close, thus market risk can be offset. The Group

does not expect significant foreign exchange risk.

- ii. The Group's businesses involve some non-functional currency operations (the Group's functional currency: NTD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	December 31, 2024		
	Foreign currency amount (In thousands)	Exchange rate	Book value
(Foreign currency: functional currency)			
<u>Financial assets</u>			
<u>Monetary items</u>			
USD:NTD	\$ 618	32.785	\$ 20,261

There was no such situation for the year ended December 31, 2025.

With regard to sensitivity analysis of foreign currency exchange rate risk, if exchange rate of NTD had appreciated/depreciated by 1% against USD and EUR with all other variables held constant, the post-tax profit would increase/decrease by \$— and \$162 for the years ended December 31, 2025 and 2024, respectively.

- iii. The total exchange (loss) gain, including realised and unrealised, arising from significant foreign exchange variation on the monetary items held by the Group amounted to (\$2,809) and \$4,499 for the years ended December 31, 2025 and 2024, respectively.

Price risk

- i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.
- ii. The Group's investments in equity securities comprise shares issued by the domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, post-tax profit for the years ended December 31, 2025 and 2024 would have increased/decreased by \$2,227 and \$1,767, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity, before-tax profit would have increased/decreased by \$2,032 and \$1,114, respectively, as a result of other comprehensive income on equity investment classified as at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

- i. The Group's interest rate risk arises from long-term and short-term borrowings with variable rates, which expose the Group to cash flow interest risk. For the years ended December 31, 2025 and 2024, the Group's borrowings at variable rate were denominated in NTD.
- ii. With regard to sensitivity analysis of interest rate risk, if interest rate on borrowings increased/decreased by 1% with all other variables held constant, post-tax profit for the years ended December 31, 2025 and 2024 would have decreased/increased by \$157 and \$139, respectively, mainly as a result of higher/lower interest expense on floating rate borrowings.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the notes and accounts receivable based on the agreed terms.
- ii. The Group manages its credit risk taking into consideration the entire Group's concern. According to the Group's credit policy, the Group is responsible for managing and analysing the credit risk for each of its new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
- iii. In line with credit risk management, if the contract payments were past due over 90 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition. The default has occurred when past due over a certain time.
- iv. The Group applies the simplified approach using the provision matrix to estimate expected credit loss, and uses the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable. As of December 31, 2025 and 2024, the provision matrix is as follows:

December 31, 2025	During the credit period	Overdue 1~90 days	Overdue 91~180 days	Overdue 181~270 days
Total book value	\$ 1, 089, 689	\$ 93, 980	\$ 134	\$ 43
Expected credit rate	0. 02%	1. 75%	71. 00%	80. 26%
Loss allowance	\$ —	\$ 1, 058	\$ 95	\$ 35

			Individually assessed impairment loss	
December 31, 2025	Overdue 271~365 days	Over 365 days overdue		Total
Total book value	\$ 73	\$ 37	\$ 21,655	\$ 1,205,611
Expected credit rate	85%	100%	100%	
Loss allowance	\$ 62	\$ 37	\$ 21,655	\$ 22,942
December 31, 2024	During the credit period	Overdue 1~90 days	Overdue 91~180 days	Overdue 181~270 days
Total book value	\$ 1,171,401	\$ 14,002	\$ 57	\$ 18
Expected credit rate	0.02%	0.81%	33.63%	40.94%
Loss allowance	\$ -	\$ 829	\$ 19	\$ 7
			Individually assessed impairment loss	
December 31, 2024	Overdue 271~365 days	Over 365 days overdue		Total
Total book value	\$ 3	\$ 363	\$ 21,847	\$ 1,207,691
Expected credit rate	47.75%	100%	100%	
Loss allowance	\$ 1	\$ 363	\$ 21,847	\$ 23,066

- v. Movements in relation to the Group applying the simplified approach to provide loss allowance for accounts receivable are as follows:

	For the year ended December 31, 2025		
	Notes receivable	Accounts receivable	Total
Beginning balance	\$ 13	\$ 23,053	\$ 23,066
Reversal of impairment loss	-	(85)	(85)
Write-offs of uncollectible receivables	-	(39)	(39)
Ending balance	\$ 13	\$ 22,929	\$ 22,942

	For the year ended December 31, 2024		
	Notes receivable	Accounts receivable	Total
Beginning balance	\$ 13	\$ 19,605	\$ 19,618
Impairment loss	-	3,448	3,448
Ending balance	\$ 13	\$ 23,053	\$ 23,066

(c) Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by the Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the

Group does not breach borrowing limits or covenants.

ii. The Group has the following undrawn borrowing facilities:

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Floating rate:		
Expiring within one year	\$ 460,000	\$ 213,068
Expiring in more than one year	<u>401,100</u>	<u>329,300</u>
	<u>\$ 861,100</u>	<u>\$ 542,368</u>

iii. The table below analyses the Group's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

<u>December 31, 2025</u>	<u>Less than 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>More than 5 years</u>
Non-derivative financial liabilities:				
Short-term borrowings	\$ 444,250	\$ –	\$ –	\$ –
Short-term notes and bills payable	80,000	–	–	–
Notes payable	4,752	–	–	–
Accounts payable (including current portion)	115,925	–	–	–
Other payables	112,051	–	–	–
Lease liabilities	44,750	31,998	92,314	390,971
Long-term borrowings (including current portion)	75,667	74,747	218,807	156,821
<u>December 31, 2024</u>	<u>Less than 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>More than 5 years</u>
Non-derivative financial liabilities:				
Short-term borrowings	\$ 321,265	\$ –	\$ –	\$ –
Notes payable	4,742	–	–	–
Accounts payable (including related parties)	317,611	–	–	–
Other payables	129,472	–	–	–
Lease liabilities	37,239	50,645	108,557	415,373
Long-term borrowings (including current portion)	57,629	56,795	166,263	158,763

- iv. The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed and emerging stocks is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in listed stocks through private placement (the discount on liquidity of 14.62% and 7.53%, respectively.) are included in Level 2.

Level 3: Unobservable inputs for the asset or liability.

- B. The carrying amounts of the Group's financial instruments not measured at fair value (including cash and cash equivalents, financial assets at amortised cost-current, notes receivable, accounts receivable (including related parties), other receivables, guarantee deposits paid, short-term borrowings, short-term notes and bills payable, notes payable, accounts payable (including related parties), other payables and long-term borrowings (including current portion)) are approximate to their fair values.

- C. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets at December 31, 2025 and 2024 is as follows:

<u>December 31, 2025</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<u>Recurring fair value measurements</u>				
Financial assets at fair value through profit or loss				
Equity securities	<u>\$ 30,589</u>	<u>\$ 247,800</u>	<u>\$ –</u>	<u>\$ 278,389</u>
Financial assets at fair value through other comprehensive income				
Equity securities	<u>\$ 119,175</u>	<u>\$ 84,000</u>	<u>\$ –</u>	<u>\$ 203,175</u>

<u>December 31, 2024</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<u>Recurring fair value measurements</u>				
Financial assets at fair value through profit or loss				
Equity securities	\$ <u> –</u>	\$ <u>220,900</u>	\$ <u> –</u>	\$ <u>220,900</u>
Financial assets at fair value through other comprehensive income				
Equity securities	\$ <u> –</u>	\$ <u>111,440</u>	\$ <u> –</u>	\$ <u>111,440</u>

The methods and assumptions the Group used to measure fair value are as follows:

- (a) The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	<u>Listed and emerging stocks</u>
Market quoted price	Closing price

- (b) Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the balance sheet date.
- (c) The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. As a result, the estimate generated by valuation model will be slightly adjusted based on additional inputs, such as model risk or liquidity risk of counterparties. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.
- D. For the years ended December 31, 2025 and 2024, there was no transfer between Level 1 and Level 2, and there was no transfer from or to Level 3.
- E. Treasury segment is in charge of valuation procedures for fair value measurements being categorised within Level 2, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently updating inputs used to the valuation model and making any other necessary adjustments to the fair value.

13. SUPPLEMENTARY DISCLOSURES

According to the current regulatory requirements, the Group is only required to disclose the information for the year ended December 31, 2025.

(1) Significant transactions information

- A. Loans to others: None.
- B. Provision of endorsements and guarantees to others: None.
- C. Holding of significant marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Refer to table 1.
- D. Purchases or sales of goods from or to related parties reaching NT\$100 million or 20% of paid-in capital or more: Refer to table 2.
- E. Receivables from related parties reaching NT\$100 million or 20% of paid-in capital or more: None.
- F. Significant inter-company transactions during the reporting period: None.

(2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China): Refer to table 3.

(3) Information on investments in Mainland China

As of December 31, 2025, there are no investments in Mainland China.

14. Segment Information

(1) General information

The Group operates business only in a single industry. The Group's chief operating decision-maker, who allocates resources and assesses performance of the Group as a whole, has identified that the Group has only one reportable operating segment.

(2) Information about segment profit or loss, assets and liabilities

The segment information provided to the chief operating decision-maker for the reportable segments is as follows:

	For the years ended December 31,	
	2025	2024
	The Group	The Group
Segment revenue		
Revenue from external customers, net	\$ 7, 678, 408	\$ 9, 313, 434
Depreciation and amortisation	97, 269	74, 295
Finance costs	28, 043	21, 534
Segment profit before income tax	182, 962	265, 299
Segment assets	4, 249, 928	4, 351, 280
Non-current assets capital expenditure	213, 908	414, 574
Segment liabilities	1, 908, 072	1, 967, 921

(3) Reconciliation for segment income

The revenue from external customers reported to the chief operating decision-maker is measured in a manner consistent with that in the statement of comprehensive income. The amounts provided to the chief operating decision maker with respect to segment income, total assets and total liabilities are measured in a manner consistent with that of the financial statements. Therefore, such reconciliation is not required.

(4) Information on products and services

Revenue from external customers is mainly from wholesale hardware and building materials and in manufacturing and sales of its component.

Details of revenue are as follows:

	For the years ended December 31,	
	2025	2024
Sales revenue	\$ 7, 678, 408	\$ 9, 313, 434

(5) Geographical information

Geographical information for the years ended December 31, 2025 and 2024 is as follows:

	For the year ended December 31, 2025		For the year ended December 31, 2024
